Information for Carers

Do you help support someone at home?
If so, you may be a **carer**

What is a carer?

“A carer is someone who provides help and support, unpaid, to a family member, friend or neighbour who would otherwise not be able to manage”

[Carers in Hertfordshire](#)

Admission into hospital

We recognise the vital role that carers play in ensuring the health and wellbeing of those they care for. All staff are committed to working with carers to ensure that a partnership approach is taken. We will recognise the carers role, expertise and understanding of the patients needs when planning care, treatment and discharge.

As part of the partnership approach to care, the staff may ask if you wish to continue some of your caring role whilst your loved one is in hospital. Please discuss this with a member of staff on the ward.

It is important, if you are a carer, that we are aware of your role from the moment that the person you care for is admitted into hospital. Please let us know that you are a carer, so we can recognise your role and respect your needs together with your cared for.

Confidential information

Staff will need to ask for consent from the person you care for in order to be able to discuss medical details with you. Consent to share information with you will be recorded in the patient's medical records.

What to do if you have any concerns

To help resolve your concerns as quickly as possible, please speak to the ward sister or ask to speak to one of our matrons. We also have a Patient Advice and Liaison Service (PALS) who can provide you with advice and support. At Lister Hospital, the PALS office is located on Level 3, next to WH Smith in the main corridor. They will also help you raise any concerns with our staff.

Carers' support

The hospital values the contribution carers make and would like to support you whilst your cared for is in hospital.

- Open visiting hours to carers. Please discuss with ward staff.
- Lister Hospital operates a Carers' Passport scheme. On presentation of your 'I am a Carer' card or your 'Carers' Passport' card from Carers in Hertfordshire (both pictured below) you can get various discounts at the hospital, such as:
 - 15% discount on takeaway food and drinks from the staff canteen (situated just past the lifts on Level 3).
 - 10% discount in the pharmacy shop near the lifts in the main building on Level 3.
 - Car parking – If you expect to be visiting for a month or more, please speak to a member of staff on the ward. They will be able to arrange a longer car park pass on your behalf. Please note there is a charge payable for the car park pass.
- If you do not have a Lister Hospital or Carers in Hertfordshire Passport Card, please ask ward staff for more information.

Concerns when back at home

We know that when your loved one comes back home, especially when things have changed, it can be harder going back to caring than you thought. It is better to discuss these concerns early. Please speak to your GP, or the nurse that comes to visit (if you have one). Alternatively, contact either one of the charity groups or Hertfordshire Health & Community Services as listed on the back page.
